This publication supersedes the Union List of Serials 1975, PB-252 472.

16. ABSTRACT

The second edition of this joint listing of serials includes the holdings of the following library systems:

U.S. Environmental Protection Agency (EPA)
(including the Illinois Institute for Environmental Quality)
Food and Drug Administration, Bureau of Foods Library (FDA)
National Aeronautics and Space Administration (NASA)
National Bureau of Standards (NBS)
National Oceanic and Atmospheric Administration (NOAA)
U.S. Patent and Trademark Office.

This report includes 16,362 titles and 41,649 holdings. The arrangement is alpnabetical by title.

INTRODUCTION

The second joint listing of serials includes the holdings of the following library systems: U.S. Environmental Protection Agency (EPA) (including the Illinois Institute for Environmental Quality); Food and Drug Administration, Bureau of Foods Library (FDA); National Aeronautics and Space Administration (NASA); National Bureau of Standards (NBS); National Oceanic and Atmospheric Administration (NOAA); and the U.S. Patent and Trademark Office. This report includes 16,362 titles and 41,649 holdings.

Titles beginning with abbreviations are listed at the beginning of each alphabet; titles beginning with numerals are listed at the end of the report. Parentheses following a title may contain the definition of an abbreviation or of an acronym, the name of the organization publishing the journal, or indication of a former (F) title or of a current (C) title. The 8-digit number immediately following the title is the International Standard Serial Number (ISSN). A list of abbreviations used in this report can be found on page v.

The letter codes preceeding each item identify the holding organization. EPA library codes are assigned according to geographical locations representing the EPA regional structure. All EPA library codes begin with an "E." The "A" library is always the regional library; "B," "C," and sequentially lettered codes refer to other libraries located in the EPA geographical region. FDA library code begins with an "F"; NASA codes begin with an "A"; NBS library code begins with an "S"; NOAA codes begin with an "N"; and the U.S. Patent and Trademark Office library codes begin with a "P". A list of addresses and telephone numbers of participating libraries begins on page vii.

Each holdings record includes the holding library code (e.g., EPA - E03A; NOAA - NNMA), the beginning volume number and date [e.g., 074 (1967)] and the ending date (or "to present" for continuing subscriptions). The holdings statement may also include any one of the following elements: (1) an asterisk (*) which indicates that issues are missing; (2) the letter "M" which indicates the journal title is maintained in microform; and (3) a call number or some other identifying information.

ABBREVIATIONS USED IN THE JOURNAL HOLDINGS REPORT

Those abbreviations marked with an asterisk indicate that the word will be spelled out in full, rather than abbreviated, if it is the first word of the journal title.
